PROFESSIONAL SUMMARY

B.Tech graduate in Electronics and Communication Engineering with hands-on training in Python and Full Stack Web Development. Experienced in building Python-based applications, SQL databases, RESTful APIs. Strong foundation in Python, SQL, web technologies, Data Structures and Algorithms, and Object-Oriented Programming.

EDUCATION

TKR College of Engineering and Technology, Hyderabad

B.Tech — Electronics and Communication Engineering | CGPA: 7.5 | 2021–2025

Sri Gayatri Junior College, Hyderabad

Intermediate (MPC) | Percentage: 84% | 2019–2021

Geetham High School, Jadcherla, Mahabubnagar

SSC | Percentage: 87% | 2019

TECHNICAL SKILLS

Programming: Python, SQL

Web Development: HTML, CSS, JavaScript

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming

Tools: VS Code, MySQL

Version Control : Git , GitHub

PROJECTS

Car Rental Web Application

Technologies: Python, FastAPI, React.js, SQL, Pandas

- Developed a web-based car rental application for browsing, searching, and booking rental cars based on availability and rental dates.
- Built responsive and user-friendly interfaces using **React.js, HTML, CSS, JavaScript, and Bootstrap**.
- Integrated the React frontend with **Django REST APIs** for authentication, car details, availability, and booking management.
- Implemented **CRUD operations** for cars and booking management through the admin interface.
- Used **MySQL** to store and manage user, vehicle, and booking-related data.

Identification of Plant Disease from Leaf Images Based on CNN

Technologies: Python, OpenCV, Inception-V3, Transfer Learning

- Developed a deep learning-based system to identify and classify plant diseases from leaf images using an Inception-V3 CNN with Transfer Learning.
- Implemented image preprocessing techniques including resizing, normalization, and data augmentation to improve model performance on small datasets.
- Designed the system to support early plant disease detection and assist farmers in identifying diseases quickly and accurately.

TRAINING

CV Corp — Python & Full Stack Web Development Training | 6 Months

- Completed industry-oriented training in Python, HTML, CSS, JavaScript, and MySQL with hands-on web application development.
- Strengthened programming, database management, problem-solving, and software development skills through practical projects and real-world scenarios.
